Suddha -

We were able to reschedule so that we can proceed with only one sampling team during the week of March 5th. Currently - we still have only three split samples scheduled. I've attached the schedule for split samples for Monday and Tuesday which we provided to Cabot and PADEP. Here are the IDs for the locations identified in the attached table:

HW-56 =   
HW-60 =  Ex. 6 - Personal Privacy  
HW-61 =

In addition, on Tuesday March 6th at 8:30 am, EPA is scheduled to sample  (HW-62) at  Ex. 6 - Personal Privacy - NO SPLITS.

I understand that the field teams should expect to purge/sample from the washing machine spigot (there is no access to the pressure tank - no spigot). From the notes I have, it looks like we will only be collecting one sample at the washing machine machine spigot - no tap sample.

We will let you know if there are any changes/additions to this schedule. Please contact me with any questions.

Thank you - Kelley

Hi Suddha - I am out getting lunch - but will e-mail the schedule when I get back to office. You are correct - we currently have 4 homes scheduled - 2 Mon and 2 Tues - no double apts - one team can cover the sampling. - Kelley

Hi Rich,  
Hope you had a good restful and relaxing weekend.  
The last I had heard we were to mobilize to the Site on Sunday, March 4, and resume sampling on the morning of March 5. There were to be approximately 5 homes to sample and we were to utilize only 1 sample team. Is this still correct? Also, to help better prepare for the sampling, would you be able to provide a sample schedule for the week of March 5?  
Thanks,

Suddha Graves
